

Leadership Agility in a Dramatically Changing World

Skills for Thriving Despite Impermanence

A CONFERENCE WITH A DIFFERENCE

Conference Program and Registration

Leaders and individuals balance many competing interests. These can seem diametrically opposed. How does an 'agile' leader, or individual, make the right decision, or choose the right path, in the midst of complex and competing pressures? Importantly, how can we thrive in a state of impermanence?

How do we:

- achieve stability and consistency ... as well as flexibility, in a constantly changing world?
- weigh economic value ... yet create a value-driven, compassionate community/organisation?
- ensure maximum productivity from staff ... and also value and enhance the lives of those we lead?
- provide boundaries ... yet inspire and welcome creativity and innovative thinking?
- be a 'servant' of the organisation ... yet remain true to ourselves?
- build our own future security ... yet live a well-rounded life, now?
- take care of ourselves ... and share the wealth?

In an interconnected world, the decisions we make inescapably impact those around us.

This conference brings together three streams: *Community, Organisational, and Personal Leadership* in a unique way to address these issues from many perspectives.

- All keynote and workshop presenters have profoundly impacted people in their leadership roles
- Workshops are fully integrated – Each workshop includes didactic, as well as experiential learning and innovative processes
- Numbers are limited to ensure maximum involvement – Smaller workshop groups, as well as large groups, with opportunities to work with presenters and colleagues in a meaningful way
- Conference design is tailored to empower you and meet your leadership needs – Opportunities to engage with colleagues, build networks, and create a difference in your world, community and organisation.
