

Human Ingredient aims to provide consultation services to businesses and communities who wish to foster the development of their people to productively embrace the challenges of the 21st century. We value visionary interventions that result in real change, are sensitively implemented and stem from the needs and values of the people who are directly affected.

An Invitation from Bernadette and Chris.

If you see a need to develop your organisation or community and people into one where:

- Continual learning is valued and expected
- + Challenge is part of how you want to work
- + You are prepared to take personal risks and challenge boundaries
- + Success is being reworked to include personal, professional, business and community outcomes

Then we can work with you to meet your needs in the following areas where we consult, train and advise:

Organisational, personal and staff development such as: Leadership, team building, change management, workplace communication and conflict, coaching, facilitation, creativity and

innovation

development inc:
Organisational reviews, cultural diagnostics, partnering, visioning, scenario development, strategic and business planning, marketing

Business and productivity
